

## EUC Advanced Train-the-Trainer Courses & Workshops

### **TRAIN-THE-TRAINER SIMULATION COURSE & WORKSHOP (2-DAY COURSE):**

EUC possesses a wide range of state-of-the-art complex simulators in the region. The course is specially designed for small groups of educators who wish to discover how to use simulators as a teaching tool. This comprehensive two-day program is created specifically for those with a role in clinical education and training and who wish to enhance their teaching skills in simulation-based education.

#### **In the Simulation Course you will cover:**

- Technical set-up of simulators
- Education theory and the simulation cycle
- Identify and write learning objectives for clinical skills or scenario-based training appropriate to their clinical setting
- Scenario design: design a basic clinical scenario clearly aligned with the learning objectives
- Use a high technology simulator, task trainers or manikins to create realistic learning opportunities
- Scenario scripting
- Debriefing: use basic debriefing skills to contribute to simulation learning
- Practical moulage workshop

### **TRAIN-THE-TRAINER OSCE COURSE & WORKSHOP (2-DAY COURSE):**

The main purpose of this course is to help you prepare and maintain the skills required to examine proficiently in OSCEs. You will gain a greater understanding of theory behind OSCEs, and also familiarize yourself with the process and some of the practical issues required in being an OSCE examiner. Ultimately our aim is to help improve consistency of examiners for reliable and fair examination of all candidates.

#### **In the OSCE Course you will cover:**

- Understanding typical simulation-based education strategies to support OSCE rehearsal
- Writing a formative OSCE Scenario in line with Evidence Based Criteria
- Tools and techniques for simulating OSCE assessments
- Evaluation of performance a constructive feedback
- Hints and tips to successfully perform an OSCE assessment

## 4th Train-the-Trainers Seminar & Clinical Instructors Award Ceremony

Thursday, 21st February 2019, 15:00 - 17:30

# European University Cyprus School of Medicine Celebrates its Clinical Instructors

Clinical Instructors (CIs) are responsible for supervising students during their activities in the various clinics while they complete their clinical rotations at specific affiliated hospitals and specific specialties. By showing students how to perform key duties, providing instructive feedback, offering vital insight into procedures and patient care, CIs are key educational partners and essential guides for European University Cyprus medical student training.

In acknowledgement of the importance of Clinical teaching, the annual "Clinical teaching program - Train the trainers" seminar is designed for all European University Cyprus Clinical instructors who teach European University Cyprus medical students in the clinical environment. These seminars introduce clinical educators to the basic concepts of clinical and bedside education.

Lectures focus on the principles, guidelines and alternatives, that clinical teaching faculty can use to improve their teaching effectiveness. The seminar provides high-yield, relevant and interactive sessions, providing practical tips for bedside teaching.

As European University Cyprus School of Medicine is dedicated to skills and competency development in their students, specialized advanced workshops are offered for European University Cyprus Clinical Instructors for formal simulation instruction training, and clinical skills assessment objective structured clinical examination (OSCE). As experienced professional in your field of expertise, you are best equipped to spur motivation, share knowledge and consolidate commitment in young medical students. These courses aim to further enhance these skills.

## Clinical Instructors Award Ceremony

### PROGRAM

---

**15:00 - 15:15**

#### **Welcome Address**

**Prof. Kostas Gouliamos**

*Rector, European University Cyprus*

**Prof. Elizabeth Johnson**

*Dean, School of Medicine, European University Cyprus*

---

**15:15 - 15:45**

#### **Clinical Training at European University Cyprus**

The Clinical Training Committee, Hospital Training Site Liaisons and Clinical Training Manual

**Prof. Elizabeth Johnson**

*Dean, School of Medicine, European University Cyprus*

---

**15:45 - 16:15**

#### **Clinical Teaching**

Classroom vs Bedside, One-minute preceptor, Logbooks and Mini-CEX

**Dr. Constantinos Tsioutis**

*Chair, Clinical Training Committee, European University Cyprus, Scientific Council, Larnaca-Ammochostos, SHSO*

**Mr. Charalampos Pittas, RN**

*Clinical Training Assistant*

---

**16:15 - 16:30**

#### **Discussion**

---

**16:30 - 16:45**

#### **European University Cyprus CME Program**

Advanced Train-the-Trainer Seminars & Workshops Future. European University Cyprus CME Courses

**Prof. Elizabeth Johnson,**

*Dean, School of Medicine, European University Cyprus*

**Dr. Constantinos Tsioutis**

*Chair, Clinical Training Committee, European University Cyprus*

---

**16:45 - 17:30**

#### **Clinical Instructors Awards Ceremony:**

Annual Awards Ceremony to Honor European University Cyprus Clinical instructors for their dedication to medical education  
Clinical Training Committee

European University Cyprus, School of Medicine

---

**17:30**

#### **Reception**

---
